

## PRESS RELEASE

### **Subject: Negotiations with a view to acquiring SEICO.**

We are pleased to inform you that the COFIDUR Group is in the process of negotiations to acquire SEICO.

This strategic acquisition, part of our AMBITIONS 2025 plan, would mark an important step in our development.

It would enable us to broaden our expertise in the field of electronic subcontracting, strengthening our market position by combining our robustness with SEICO's agility.

SEICO, with its 40 years of expertise in the Nantes region, has sales of €15.7 million and around 100 employees.

It specialises in electronic subcontracting and is recognised for its skills in the development, industrialisation, manufacture and testing of electronic boards, wiring, precision integration and tooling/test benches.

Its solutions cover several markets: industrial electronics, defence, security, energy, environment, medical and transport.

By integrating SEICO's skills, we aim to strengthen :

- Our position in the EMS market, with sales of €100m and a workforce of over 500 people,
- Our ability to handle the development phases of prototypes and small production runs,
- The agility and complementary nature of our industrial base.

We are convinced that this acquisition would bring significant benefits to our teams, our customers and our partners.

We will keep you informed of the progress of our project in the coming weeks.

Thank you for your trust and continued support.
